Yongkang Lavorwash Equipment Co. Ltd. set up in 2004 as a manufacturing and commercial branch of Lavorwash Spa, Italian company set up in 1975, one of the world's most important manufacturers of high-tech cleaning systems for small and large surfaces for more than 40 years. Nowadays the company has an increasing consolidated turnover and more than 350 employees situated in several branches in Italy, China, Brazil, France, Spain, Poland and UK.

The company recently celebrated the opening of its new headquarters which includes a warehouse, but more importantly a larger factory, with more space and improved organisation for production, for a total of 30,000 sqm.

Yongkang

Lavor equipment Co. Ltd

Tecnology and design

Relying on more than forty years of experience and on the technical know-how of Lavorwash Group, new models and new products are followed step by step by resident Italian engineers.

The opening of the new facility has led to an increase in the varieties of models in the range, providing greater flexibility in production and the possibility of developing new products.

NEW FACTORY VIDEO

Italian management

Italian managers, engineers and employees run the company. Yongkang Lavorwash Equipment Co. Ltd stretches over more than 30,000 square meters, with a growing number of employees continuously increasing.

Quality and service

The LAVOR brand assures the quality of all products certified by leading certificate Corporations such as GS, UL, TUV-SUD, and INMETRO. Product quality is also certified by in-house testing on 100% of products, and with the possibility of FFU certified work for individual clients.

The larger area of the new facility has allowed the company to streamline quality control thanks to the set-up of new testing spaces and rooms with new equipment.

STANDARD EQUIPMENT

High pressure cleaner with patented **Washing Program System**, offering the most suited washing program for each cleaning task.

PLUS:

- **Variable performances & connected load:** Motor & pump variable speed, flow rate and operating pressure adjustment without efficiency loss. **Maximized water and energy saving for each cleaning task**
- **Longer motor life:** Slow & progressive motor spinning start. No current peaks, less sparks and mechanical stress inside the motor. **Extended product working life – higher value for money**
- **Working mode setting:** Solid rotative selector on the unit with 3 pre-set washing programs **simple selection of extensive tailored performances**

SELECT YOUR PROGRAM

PROGRAM SOFT	-50% Energy saving	GARDEN FURNITURE, SURFACES, BICYCLES, PLASTERS...
PROGRAM MEDIUM	-25% Energy saving	CARS, MOTORBIKES, CARAVANS, PLASTERED WALLS...
PROGRAM HARD	100% Power	METAL RAILINGS, GARDEN TOOLS, BRICKS, TERRACES...

Being Manufacturers: from experience to knowledge

In the high-pressure cleaners market companies are divided in those who buy components to assemble products and manufacturers, who have a continuous R&D on all product components. Lavorwash manufactures all high-pressure cleaners components entirely and this allows: to spread product knowledge, culture and experience inside the company; to check the entire manufacturing cycle; to adopt possible improvements immediately; better sensitivity to market request adjusting product range design in real time.

Floor loaded not available.

Torrens 1211 LP

T.V. Thermal Valve

- 4 poles electrical motor (1450 RPM) with thermal protection with built-in by-pass valve
- Suction and delivery S/S valve
- Total stop
- Power cable (m 5)
- Auxiliary motor for burner air-cooling and two ways fuel pump
- Temperature regulation gauge
- Glycerine pressure gauge
- Vertical burner with high thermal efficiency steel coil

Wet & Dry professional vacuum cleaners

The Professional range of LAVOR PRO vacuum cleaners provides the solution for every kind of heavy duty daily use. Designed to be user friendly, they are equipped with ergonomic handle, big wheels and stable trolley offering the final answer to the needs of cleaning contractors, industries, workshops, car washing station etc. This feature avoids shocks to the end user, making usage easier. The filter area is reachable easily and the wide float seat grants stability on the floor during filter cleaning session.

Dozer 260 IR

PROFESSIONAL WET & DRY VACUUM CLEANERS

- 2 silenced two stage motor.
- Suction system with by-pass cooling.
- S/S tank.
- Professional closing hooks.
- Static electric shock inhibitor.
- Flex hose 4 m
- Metal extension pipe
- Shock proof trolley.
- Liquid float valve.
- Cloth filter.
- 5 m power cable.
- Tilting tank
